IMPORTANT NOTICE FROM THE MONTANA UNIVERSITY SYSTEM
ABOUT YOUR PRESCRIPTION DRUG COVERAGE AND MEDICARE PART D

Please read this notice carefully and keep it where you can find it. This notice has information about your current prescription drug coverage with the Montana University System's group health benefits plan and about your options under Medicare's prescription drug coverage. This information can help you decide if you want to join a Medicare drug plan. If you are considering joining, you should compare your current coverage, including which drugs are covered at what cost, with the coverage and costs of the plan offering Medicare prescription drug coverage in your area. Information about where you can get help to make decisions about your prescription drug coverage is at the end of this notice.

There are two important things you need to know about your current coverage and Medicare's prescription drug coverage:

1. Medicare prescription drug coverage became available in 2006 to everyone with Medicare. You can get this coverage if you join a Medicare Prescription Drug Plan or join a Medicare Advantage Plan that offers prescription drug coverage. All Medicare drug plans provide at least a standard level of coverage set by Medicare. Some plans may also offer more coverage for a higher monthly premium.
2. The Montana University System Group Health Benefits Plan (MUS Plan) has determined that the prescription drug coverage offered by the MUS Plan is, on average for all plan participants, expected to pay out as much as standard Medicare Prescription drug coverage pays and is therefore considered Creditable Coverage. Because your existing coverage is Creditable Coverage, you can keep this coverage and not pay a higher premium (a penalty) if you later decide to join a Medicare drug plan.

When Can You Join A Medicare Drug Plan?

You can join a Medicare drug plan when you first become eligible for Medicare and each year from October 15th to December 7th.

However, if you lose your current creditable prescription drug coverage, through no fault of your own, you will also be eligible for a two (2) month Special Enrollment Period (SEP) to join a Medicare drug plan.

IMPORTANT NOTICE FROM THE MONTANA UNIVERSITY SYSTEM
ABOUT YOUR PRESCRIPTION DRUG COVERAGE AND MEDICARE PART D (cont'd)

What Happens To Your Current Coverage if You Decide to Join A Medicare Drug Plan?

If you decide to join a Medicare drug plan, your current MUS Plan coverage will be affected. You cannot have a separate Medicare Part D plan while you have coverage on the MUS Plan. If you do sign up for a separate Part D Plan, we will notify you that you must choose between the separate Medicare Part D Plan and the MUS Plan. If you choose to remain on the separate Part D plan, your enrollment in the MUS Plan will be cancelled and you will not be allowed to reenroll in the MUS Plan. Please consider this decision very carefully, as the MUS Plan covers not only your prescription drug purchases but also many of your health expenses, as secondary payer to your Medicare coverage for hospital, physician, and other related medical costs.

Remember: If you sign up for a separate Medicare Part D plan, your MUS Plan will be cancelled and you will not have an opportunity to get coverage back.

When Will You Pay A Higher Premium (Penalty) To Join A Medicare Drug Plan?

If you drop or lose your MUS Plan coverage and don't enroll in a Medicare Part D plan after your current coverage ends, you may have to pay more to enroll in Medicare prescription drug coverage at a later date. If you let 63 or more days pass without prescription drug coverage that is at least as good as standard Medicare Part D, your monthly premium will go up by at least 1% per month for every month that you do not have prescription drug coverage. You may have to pay a higher premium (a penalty) for as long as you have Medicare prescription drug coverage. You may also have to wait until the next open enrollment period, i.e., October, to enroll.
