Important Questions	Answers	Why this Matters:
What is the overall deductible?	\$750 In-Network	Deductible applies to all services unless otherwise indicated, or a copayment applies.
Are there other deductibles for specific services?	\$750 Out-of-Network	There is a separate deductible for out of-network services.
Is there an out-of- pocket limit on my expenses?	\$4,000 In-Network \$6,000 Out-of-Network	In-Network maximum out-of-pocket amount – includes deductible, coinsurance, and copayments Out-of-Network – a separate out-of-pocket amount, includes deductible, coinsurance, and copayments
What is not included in the out-of-pocket limit?	non-covered services, and balance billing	Even though you pay these expenses, they are not included in the out-of-pocket limit.
Is there an overall annual limit on what the plan pays?	No	There may be day limits or visit limits on some services, but no overall annual dollar limit.
Does this plan use a network of providers?	Yes	See <u>www.bcbsmt.com/find-a-doctor-or-hospital or call 1-800-820-1674</u> to find a network provider.
Do I need a referral to see a specialist?	No	The deductible and coinsurance are higher if you choose an out-of-network specialist.
Are there services this plan doesn't cover?	Yes	See "Exclusions" in the Summary Plan Description (SPD)

- Co-payments are fixed dollar amounts (for example, \$25/\$40) you pay for covered health care, usually when you receive the service.
- Co-insurance is your share of the costs of a covered service, calculated as a percent of the allowed amount for the service. For example, if the plan's allowed amount for an overnight hospital stay is \$1,000, your co-insurance payment of 25% would be \$250. This may change if you haven't met your deductible.
- The amount the plan pays for covered services is based on the allowed amount. If an out-of-network provider charges more than the allowed amount, you may have to pay the difference. For example, if an out-of-network hospital charges \$1,500 for an overnight stay and the allowed amount is \$1,000, you may have to pay the \$500 difference. (This is called balance billing.)
- This plan may encourage you to use <u>In-Network providers</u> by charging you lower <u>deductibles</u>, <u>copayments</u> and/or <u>coinsurance amounts</u>.

Excluded Services & Other Covered Services:

Services Your Plan Does NOT Cover (This isn't a complete list. Check your policy or plan document for other excluded services.)

- work related accident or illness
- cosmetic procedures

• infertility treatment

Other Covered Services (This isn't a complete list. Check your policy or plan document for other covered services and your costs for these services.)

- organ transplant
- preventive services
- medically necessary travel with prior authorization-\$1,500 max/yr.

Your Rights to Continue Coverage:

You can keep this coverage as long as your premiums are paid, unless your employment terminates, or hours worked drop below 20. If you have no other coverage, you can choose to keep this coverage by electing COBRA. See your HR office for rules regarding election of COBRA benefits, and making premium payments.

Your Grievance and Appeals Rights:

If you have a complaint or are dissatisfied with a denial of coverage for claims under your plan, you may be able to **appeal** or file a **grievance**. For questions about your rights, this notice, or assistance, you can contact: Blue Cross Blue Shield of Montana at 1-800-820-1674, or MUS EB at 1-877-501-1722.

About these Coverage Examples:

These examples show how this plan might cover medical care in given situations. Use these examples to see, in general, how much financial protection a sample patient might get if they are covered under different plans.

This is not a cost estimator.

Don't use these examples to estimate your actual costs under this plan. The actual care you receive will be different from these examples, and the cost of that care will also be different.

See the next page for important information about these examples.

Questions and answers about the Coverage Examples:

What are some of the assumptions behind the Coverage Examples?

- Costs don't include premiums.
- Sample care costs are based on national averages supplied by the U.S.
 Department of Health and Human Services, and aren't specific to a particular geographic area or health plan.
- The patient's condition was not an excluded or preexisting condition.
- All services and treatments started and ended in the same coverage period.
- There are no other medical expenses for any member covered under this plan.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from innetwork providers. If the patient had received care from out-of-network providers, costs would have been higher.

What does a Coverage Example show?

For each treatment situation, the Coverage Example helps you see how **deductibles**, **copayments**, and **co-insurance** can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment isn't covered or payment is limited.

Does the Coverage Example predict my own care needs?

No. Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor's advice, your age, how serious your condition is, and many other factors.

Does the Coverage Example predict my future expenses?

No. Coverage Examples are <u>not</u> cost estimators. You can't use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your <u>providers</u> charge, and the reimbursement your health plan allows.

Can I use Coverage Examples to compare plans?

Yes. When you look at the Summary of Benefits and Coverage for other plans, you'll find the same Coverage Examples. When you compare plans, check the "Patient Pays" box in each example. The smaller that number, the more coverage the plan provides.

Are there other costs I should consider when comparing plans?

Yes. An important cost is the premium you pay. Generally, the lower your premium, the more you'll pay in out-of-pocket costs, such as co-payments, deductibles, and co-insurance. You should also consider contributions to accounts such as health savings accounts (HSAs), flexible spending arrangements (FSAs) or health reimbursement accounts (HRAs) that help you pay out-of-pocket expenses.
